Re: Resveratrol Third-Party Test Result in THREE's Éternel

Here at THREE, we provide curated proactive wellness solutions using our proprietary Cellular Absorption Technology, proven to help you live a life of greater health and purpose.

All THREE products are third-party tested to ensure purity and quality. The following page contains the third-party test result for resveratrol in our Éternel product, as analyzed by an independent laboratory. This test confirms that every serving of Éternel contains at least 200 milligrams of resveratrol.

Resveratrol, contained in a liposomal delivery system to increase cellular absorption, is one of the key ingredients in Éternel. Resveratrol has been shown in peer-reviewed clinical studies to:

- Promote cellular health and longevity.
- Protect and support cells from damage and premature aging.
- Maintain a healthy inflammatory status in the body.
- Support blood-sugar and blood-insulin levels.
- Assist in reaching your weight loss goals.
- Support healthy blood pressure levels.

Other key ingredients in Éternel that contribute to its health benefits include a superfruit blend, CoQ10, marine collagen, and glutathione.

Thank you for joining us on this journey and for trusting us with your proactive wellness needs.

Be well,
